

REFERENCE LETTER

Mr. Mikel Aristu Kortazar, born on 13.05.2001 in Arrasate, Spain, was employed at our company, Infineon Technologies AG, in the period from 01.10.2024 to 14.03.2025.

With approximately 58.600 employees, Infineon Technologies AG ranks among the top semiconductor players worldwide. Infineon designs, develops, manufactures and markets a broad range of semiconductor and system solutions aimed at making life easier, safer and greener. The company focuses on automotive and industrial electronics, information and communication technologies, mobile devices and hardware-based security.

From 01.10.2024 until 14.03.2025, Mr. Aristu Kortazar was responsible for the following tasks as a intern in the "SC Innovation" department of the "Corporate Supply Chain" division:

- Technical Contributions, by coding and deploying the frontend for the department's search engine (iWiki Search Engine) and OntoQuest for SC4EU, including a version with Digital Reference and no login
- Thesis and Research, by writing and presenting the thesis on enabling interoperability in the semiconductor industry through a semantic model for translating between industrial standards
- Support, by editing and adding metadata to knowledge graph Bitbucket repositories, by creating a demo video explaining the thesis and by supporting the demo day with posters

Mr. Aristu Kortazar possesses exceedingly wide-ranging knowledge. He immediately and confidently understands even cross-departmental states of affairs and takes them into account. Furthermore, Mr. Aristu Kortazar quickly sets the right priorities and finds good solutions. He identifies himself with his tasks and displays a very high degree of commitment and personal initiative in his work. Mr. Aristu Kortazar achieves very good results even under very high pressure. Special mention must be made of his power of judgment that enables him to make an independent, balanced and apt judgment even in difficult situations. Mr. Aristu Kortazar works absolutely reliably. He has a firm command of his sphere of duties, often has new ideas, and finds optimal solutions. We are exceedingly satisfied with the performance at all times and in all respects.
